Where are **YOU** in this? (Submitted by a WUC member)

There was an important job to be done.
Everybody was sure **Somebody** would do it.
Anybody could have done it, but **Nobody** did it.
Somebody got angry about that because it was **Everybody's** job.
Everybody thought **Anybody** could do it, but **Nobody** realized that **Everybody** would not do it.
It ended up that **Everybody** blamed **Somebody** when **Nobody** did what **Anybody** could have done.

After Recruitment Committee efforts over this past year, there are still some very important positions left vacant. **Somebody** needs to fill them, or important things will either be left undone, or fall on the overburdened shoulders of folks already doing too much. When we all participate in a meaningful way, what needs to be done gets done without burning out anyone.
