Accessibility Report to Council, Feb 2010

We enter 2010 with a sense of excitement, the architect and designer have spent considerable time and effort in reviewing our drawings, looking at alternatives and drafting plans. We expect to meet with them prior to end February to review their plans and chart our course.

A ramp has been installed at Patterson House, several people have already expressed sincere thanks for this small contribution towards accessibility. We await milder weather to upgrade the lower approach to the ramp.

“Friends of Accessibility” kick off their 2010 fund raising activities on Feb. 19th with a Fish Chowder Luncheon. That will be followed on Sunday with a concert by the Caledonian Fiddle Orchestra. Then on Saturday, March 20th they will present another Fish Chowder Luncheon. There is still opportunity to work on any of these events, bake for them or purchase tickets.

Advance notice: “Friends of Accessibility” will hold their second annual Indoor Yard Sale on Saturday, September 18th. Book the date, collect your surplus items and help us make this one even more successful than last year.

Respectfully submitted,

Ralph Sams
Chair of Accessibility Committee
